About Me

I am a joint **PhD researcher** in **labour economics** and **sociology of labour** at Ghent University and Vrije Universiteit Brussel with an **inter-disciplinary background** and a pronounced interest in data visualisation. My present work focuses on the determinants of and contextual factors contributing to **(ethnic) hiring discrimination**. More broadly, I research labour market topics relating to **hiring and selection** and **labour demand and supply**. I have previously worked for consulting firms on data governance, data analytics, and HR projects. I have also obtained a master's degree in **work psychology** and a business degree in **general management**.

Trivia

Sucker for R

I am a sucker for everything related to R (ggplot2, Shiny, Xaringan...), my go-to environment for statistical computing. The content of this very resume is written in R, using R Markdown, the `{vitae}` package, and some LaTeX typesetting.

Passionate about electronic music

I have been playing the piano since I was 9 years old, albeit much less frequently in the past few years. Moreover, between the ages of 15 and 22, I was active as an electronic music artist, producer, and event manager.

Fond of the sea

As a teenager, I longed to spend my summer vacations at the seaside. From my 18th birthday onwards, after an intensive year of training, I was able to combine this fondness for the sea with a student job as a lifeguard at the Belgian coast for 6 consecutive summers.
